

Environmental Policy

Latest update: April 2020

The Environmental Policy of Off The Grid Adventures CIC (OTGA) is to ensure, so far as it is reasonably practicable, that its operations will be carried out with a commitment to protecting and enhancing the environment.

As an office, we know that we generate waste paper products. However, as we strive for excellence in every aspect of our business, we are committed to minimising the environmental impacts of the business operation.

1. Our stated aims are to:

- 1.1 Aim to continuously improve our environmental performance, particularly with regards to our recycling and re-use of paper.
- 1.2 Where possible, we will use recycled or ecologically friendly paper.
- 1.3 We will use “waste paper” for notepads, unless confidentiality may be compromised.
- 1.4 Reduce our consumption of resources and improve the efficiency of those resources by printing double sided where practicable.
- 1.5 Manage waste generated from any OTGA operations, according to the principles of reduction, re-use and recycling.
- 1.6 Recycle all paper products, ink or toner cartridges.
- 1.7 Will make use of any food waste that we are able to use in a safe and hygienic manner.
- 1.8 We will promote all aspects of this environmental policy in the operation of our growing spaces.

- 1.9 We will not use any chemical, material or additive that is harmful to the environment in the development and maintenance of our growing spaces and gardens.
- 1.7 Comply as a minimum with all relevant environmental legislation as well as other environmental requirements.

This Environmental Policy Statement will be regularly reviewed and updated as necessary. The Directors, staff and volunteers endorse these policy statements and are fully committed to their implementation.
